PROFESSIONAL SUMMARY

Final-year B.Tech student in Artificial Intelligence and Data Science with hands-on experience building AI systems using FastAPI, React.js, Next.js, LangChain, PostgreSQL, and Docker. Skilled in developing LLM-based agents, Retrieval-Augmented Generation (RAG) pipelines, and full-stack applications. Freelance web and AI application developer with a track record of delivering production-ready systems for hospital, ERP, and compliance platforms.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, HTML5, CSS3

Frameworks: FastAPI, React.js, Next.js, Node.js, Streamlit, Gradio

AI / GenAI: LLMs, Generative AI, AI Agents, RAG, LangChain, Prompt Engineering, Vector Embeddings, ChromaDB, Ollama

Machine Learning / CV: TensorFlow, OpenCV, MediaPipe, Tesseract OCR, YOLOv8

Backend / APIs: REST APIs, JWT, OAuth, Google Calendar API

Databases / DevOps: PostgreSQL, Supabase, Prisma ORM, Docker, Git, GitHub, Linux, SSH

PROJECTS

AI Personal Assistant — LLM Agent & Calendar Automation

github.com/Manju1303/Personal-Assistant

Python, FastAPI, Next.js, PostgreSQL, Docker

- Built an AI assistant that converts natural-language requests into structured calendar actions.
- Integrated multiple LLM providers with fallback processing, Google Calendar sync, conflict detection, and JWT authentication.

AuthentiCite — AI Research & Plagiarism Analysis Platform

github.com/Manju1303/AuthentiCite

Python, FastAPI, Gradio, Docker, AI/NLP

- Developed an AI-assisted platform for plagiarism detection, AI-content analysis, paper generation, and text rewriting.
- Built a FastAPI backend with a Gradio interface and containerized deployment.

Memora — Persistent AI Memory Agent

github.com/Manju1303/Memora

Python, LangChain, RAG, ChromaDB, Ollama

- Developed a persistent AI assistant using RAG and vector-based long-term memory for contextual recall.
- Implemented semantic memory search, short-term context tracking, and fact extraction/summarization.

HealthGuard AI — NABH Compliance System

nabh.vercel.app

Python, FastAPI, React, PostgreSQL

- Developed an AI-powered NABH accreditation compliance assessment platform with automated scoring and gap analysis.
- Implemented a 250+ point compliance checklist and an interactive reporting dashboard.

PROFESSIONAL EXPERIENCE

Department of Artificial Intelligence and Data Science, JKKMCT

Departmental Support & Documentation Assistant

- Designed posters and digital creatives for department events using Canva.
- Prepared and maintained departmental documentation and official records.
- Assisted in organizing technical events, workshops, and student activities.
- Collaborated with faculty to support administrative and documentation tasks.
